

Emergency Cards and Individualized Health Care Plans

Emergency cards and Individualized health care plans are distributed during the first week of school to each student. **Parent/guardians are asked to return these forms within that first week to insure that the school nurse has the proper information in the event of illness or medical problems.** If changes in your information occur during the year, such as change of phone numbers, place of employment, contacts, please inform the school nurse immediately so that the student's information can be updated and proper in the event of an emergency situation.
