

Sidewalk Chalk

1. Practice spelling our old spelling words. They are on-line. We have learned all of the words through unit 4.
2. Practice your addition and subtraction facts. Any single digit numbers. Remember you should have your 100's chart in your red folders.
3. Draw a picture with characters and a setting. Then tell a story to your family about the picture. Remember a story needs a beginning, middle, and end.

If you can't do this outside or you do not have chalk, try shaving cream or just crayons and paper. Have fun!
