

Delta Math

This year I will be using a website called Delta Math (in addition to other websites) for various homework assignments and additional practice. The website runs similar to Khan Academy, except instead of videos, there are step by step example problems to help you through the assigned problems if need be (and they are ACTUALLY helpful). This website is separate from Google Classroom, so the assignment will be posted under the classwork tab on Classroom, but you will need to go to the Delta Math website to complete the actual assignment. Sounds messy, but it is not...I promise.

Below is the information on how to set up an account (free) as well as what I need your login information to be.

How to create an account:

1) Go to www.deltamath.com

2) Click "Create Account" and select "Student"

*3) Enter the teacher code **750372** to be connected with my account*

4) Then enter your full first and last name and fill in the additional information required. For the email and password, please use your SCHOOL EMAIL and SCHOOL LOGIN PASSWORD. This is for continuity purposes.

5) That's it!!!
